

## PRODUCT INFORMATION

### P.C. ULTRA PROTECT 5 Diesel, 250 ml

Art. No. 60056

ULTRA PROTECT 5 Diesel contains selected active ingredient combinations. These reduce soot emissions, reduce exhaust emissions and improve engine performance. Dissolve and disperse deposits and residues such as carbon and soot. Burns soot particles in DPF-filters. Increases operational safety. Can be used in all diesel engines, including new common rail and pump jet engines.

#### Properties:

- Cleans the entire system from the tank to the combustion chamber.
- Improves the storage stability of the diesel.
- Prevents deposits in the injection system and the injection nozzles.
- Keeps the engine clean, burns free of pollutants, consumes less diesel and is therefore more environmentally friendly.
- Improved cold start behavior and less smoke due to cetan number increase.
- Corrosion protection and defoaming effect.
- Reduces soot particles through afterburning in DPF filters.

#### Application areas

In diesel vehicles with higher mileage and heavy soot formation. In worse cold start and Idle fluctuations. Increase the operational safety of low-sulfur diesel.

When the PDF warning lamp comes on for prevention.

#### Application
