

PRODUCT INFORMATION

P.C. ECO DIESEL POWER, 250 ml

Art. No. 60132

ECO DIESEL POWER contains selected additives which reduce the carbon particulate emissions as well as the exhaust fumes and improve the engine output. The additives release and disperse deposits like carbon black and increase the operation safety. It is suitable for all diesel motors, also new common-rail and pump-injection motors.

Properties

- Reduces black carbon particles
- Improves the operation safety
- Cleans the complete system from the tank to the combustion chamber
- Prevents of deposits in the injection system
- Burns with low emission, consumes less diesel and is therefore more environmental friendly
- Improved cold start behavior and less smoke by increasing the cetane number
- Anti-corrosion protection

Areas of application

It is specially designed for diesel vehicles with high mileage and high soot formation, as well as tractors and diesel trucks. To be used in case of bad cold start and idle fluctuations.

Application

After getting fuel, add content to the fuel tank. Sufficient for up to 60l diesel.

The expiration date is 2 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
