

PRODUCT INFORMATION

P.C. FUEL SYSTEM CLEANER, 250 ml

Art. No. 60002

FUEL SYSTEM CLEANER improves the performance of the motor while starting and under full load. Binds water in the tank and in the system. Ensures smooth and quiet idle.

Properties

- Improves motor power
- Increases operational safety
- Disengages and disperses residues
- Binds condensed water in the fuel tank
- Ensures a consistent combustion process
- improves CO-reading

Areas of application

It is suitable for cleaning the entire system from tank to combustion chamber. Prevents deposits in the fuel system and keeps the motor clean. It causes better fuel efficiency, is environmentally friendly and improves cold start performance. For leaded fuel according to DIN 51600 and for unleaded fuel according to DIN 51607.

Application

250ml ration package: After getting fuel, add content of can in use with the filling pipe to the fuel tank.

The expiration date is 2 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
