

PRODUCT INFORMATION

P.C. VALVE CLEANER, 250 ml

Art. No. 60022

VALVE CLEANER to use at bad compression, pinging and lag of the motor.

Properties

- Removes residues from valves, spark plugs and from combustion chambers
- Cleans at bad compression, motor power and for error checking at valve seats
- Keeps the motor clean and improves the CO-reading
- Improves the compression and thereby reduces the fuel consumption
- Saves the motor even at long-lasting stop periods from corrosion

Areas of application

To use at valves and in the induction and combustion system. Causes an optimal energy exploitation.

Application

250ml ration package: After getting fuel, add content of can in use with the filling pipe into the tank.

The expiration date is 2 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
