

PRODUCT INFORMATION

P.C. MOTOR CLEANER, 250 ml

Art. No. 60212

MOTOR CLEANER cleans and flushes the motor compartment. Concentrated cleaning additives dissolve impurities (e.g. black sludge, carbon deposits, etc.). After treatment with MOTOR CLEANER the new oil can develop its full capacity. The motor runs with less wear and develops again a better performance, thus the exhaust emissions are optimized and an insufficient lubrication is prevented.

Properties

- Cleans effectively the inwards of the motor from residues
- Eliminates black sludge
- Optimizes exhaust gases
- Prevents in "low lubrication"
- Prevents from wear

Areas of application

It is applicable to motors with high pollution and loss of power.

Application

250ml ration package: Fill in the content of the can to the motor oil before the next oil change. Run the motor for ca. 15 min. After that, drain off the old and fill in the fresh motor oil.

The expiration date is 2 years after production date under the permission that the product is stored in a dark, dry and cool place.

Our data sheets and prints should advise in all conscience. The content is regarding to treatment and application an unenforceable obligation as we have no bearing on it. Modifications which result in improvement are reserved.
