

PRISTA® SUPER BENZIN 10W-40

PASSENGER CAR ENGINE OILS

Description and application

Prista® Super Benzin 10W-40 is semi-synthetic multigrade engine oil, especially developed to meet the current lubrication demands of the modern gasoline engines. It is formulated with a special selection of high quality solvent refined, hydrotreated and synthetic base stocks and high performance advanced additive technology, supplied by the major world leading companies.

Prista® Super Benzin 10W-40 multigrade engine oil is designed for application in the modern high performance gasoline engines. It is also suitable for passenger cars with gas equipment.

Prista® Super Benzin 10W-40 engine oil can be used in diesel engines whose manufacturers recommend the application of API CF performance level lubricants, too.

Benefits

- Excellent detergent/dispersant properties preventing black sludge deposit formation in engine crankcase
- Very high oxidation stability to reduce oil thickening, respectively oil consumption
- Steadfast oil drain intervals
- Confident corrosion protection
- Constant and stable lubricating film over a wide temperature range and under heavy loads

Specifications

	SAE 10W-40
ACEA	A3/B3
API	SL/CF
MB	229.1
VW	501 01/ 505 00
JASO	MA/MA-2

Typical characteristics

Parameter	Test Method	Typical Value
Density at 20°C, g/ml	EN ISO 3675	0.865
Kinematic Viscosity at 100°C, mm ² /s	EN ISO 3104	14.5
Kinematic Viscosity at 40°C, mm ² /s	EN ISO 3104	100
Viscosity Index	ISO 2909	150
Flash point COC, °C	EN ISO 2592	220
Pour point, °C	ISO 3016	-33
TBN (HClO ₄), mg KOH/g	ASTM D 2896	8.8
Sulfated Ash, %	EN ISO 3987	0.95

Important note: typical data values do not constitute a specification but are an indication based on current production and can be affected by allowable production tolerances. The right to make modifications is reserved.

Health, Safety and Handling

Based on current available information, this product is not expected to produce adverse effects on health when used for the intended application.
